

Message from the Chair of the NoRME board

I was appointed as the new Chair of the NoRME board at NORMA14 in Turku. I want to continue the good job of the former Chairs of NoRME and NoGSME, and therefore I invite everybody to send me notifications and information of general concern for NOMAD's audience. I shall do my best, then, to collect and present information in the Nordic News column, starting in the second issue of NOMAD 2015.

Kind regards,

Mette Andresen

Associate professor, Department of Mathematics, University of Bergen.
