

NOMAD workshop for doctoral students in mathematics education

June 2, 2022 at NCM, University of Gothenburg, Vera Sandbergs allé 5A, Göteborg

NOMAD, *Nordic Studies in Mathematics Education*, and the National Centre for Mathematics Education (NCM) at the University of Gothenburg invite doctoral students to a one-day workshop on how to write an article for NOMAD.

The workshop will give the participants an opportunity to get feedback on their draft articles. The submitted manuscript should fit the scope of NOMAD and be complete following the guidelines of NOMAD (see *information for authors and reviewers*, <http://ncm.gu.se/5978-2>). Participants will be assigned to review one paper prior to the workshop. The review report is to be sent to the authors about two weeks before the workshop. Each participant will act as opponent on the reviewed manuscript at the workshop.

The workshop will be held by the editors of NOMAD, Britta Eyrich Jessen (University of Copenhagen), Heidi Krzywacki (University of Helsinki), Johan Häggström (University of Gothenburg), Martin Carlsen (University of Agder) and Yvonne Liljekvist (Karlstad University).

The number of participants is limited. When the maximum number is reached, registration will close. NCM will pay for the workshop programme. Participants will organise and pay for their own travel costs and lodging. To register for the workshop, send an e-mail no later than March 31, 2022, to Johan Häggström, johan.haggstrom@ncm.gu.se.

The e-mail should include the following (in English):

1. Name
2. University and department
3. Short description (max 300 words) of your doctoral research project and name/s of your supervisor/s.
4. A first version of a *complete* manuscript.

Tentative program

09.15–10.00	NOMAD – introduction and history Editorial process – from manuscript to published article Guidelines for authors and reviewers Perspectives on quality criteria for scientific papers in mathematics education research – What does it take to be published in NOMAD?
10.00–10.30	Coffee
10.30–12.00	Group work: Presentation and discussion of the submitted papers with the aim to help the authors to improve their papers
12.00–13.00	Lunch
13.00–14.30	Continued group work
14.30–15.00	Coffee
15.00–16.00	Concluding discussion
